

“The Payroll Factory provides a service superior to the competition. As a small business owner, I can’t afford to spend time away from our core business to deal with hassles relating to the operation of our business. The Payroll Factory has made payroll an easy process that requires little time on my part, allowing me to focus on our clients.

Corrections that need to be made due to an error on our part are always done timely, professionally, and courteously.

I highly recommend The Payroll Factory to any business owner, large or small.”
