

“Health Leadership Associates, Inc. has had several payroll services during the past 28 years, but the past services were never as efficient, prompt, errorless, courteous, or accommodating as The Payroll Factory.

Beginning with the first meeting with Mr. Allen Noll an immediate relationship was established over the telephone and during the initial meeting. Mr. Noll assured me that any requirement would be handled as required. Ms. Cathy Trexler was assigned to our account and the performance was more than we initially requested and all other requirements implemented without delay. All phone calls were returned promptly.

This service was provided less costly than the nationals.

The personal attention was a breath of fresh air in lieu of answering machines and calls never returned.”
