

**“The service that The Payroll Factory offers at more than reasonable rates is unheard of today. The knowledge of the staff at The Payroll Factory in regards to their business is impeccable. The Payroll Factory is proof positive that the cliché, “The grass isn’t always greener on the other side,” is true. I ventured off to a larger firm and found that I was only a number. I was sold on their service pitch but was not given what was promised. At The Payroll Factory, what is promised is always far exceeded and the service is very personable. Thank you for your service over the many, many years.”**
